Sequin Fonts

Sequin Fonts is a option to Scribe and Higher.

Create lettering that's sure to stand out from the rest!

Tajima DG/ML by Pulse offers a new set of specially punched Sequin fonts. With 2 beautiful block and 2 stylish script fonts, you'll find it easy to create sparkling sequin lettering without having to digitize individual characters.

Whether you choose sequin block or script fonts, all of our sequin fonts are sure to sew perfectly. You'll be able to create dazzling lettering and add pizzazz to any of your designs.

Sequin personalization is super easy! Use our sequin fonts like any embroidery fonts-simply type the letters required and the sequin lettering is ready. Our sequin style collection offers over 16 different sequin styles to choose from for tack down stitches. Just select the style that works perfectly for your design. Add automatic borders to any sequin font with ease– choose from Run, Steil or Fill outline types. You'll find borders a great way to redefine your sequin fonts and create special effects, giving everyday projects a distinctive flair.

You'll have complete control over sequin font settings – changing the outline sequence, type, color, and even the size of sequins is quick and easy to do. Commands to activate the sequin attachment and jump commands are automatically added. With Tajima DG/ML by Pulse, you can define the shape of sequins, and adjust the size of sequin holes. Customize the look of your sequin fonts in just a few steps!
